Other Remarks / Suggestions : Please train the students for achieving a good job in campus itself rather than struggling out. Get more campus placements and provide training according to the needs of the company that offers job positions. More encouragement should be provided to the students enthusiastic for research and development in Remote sensing and GIS

Other Remarks /
Suggestions

1. In syllabus perspective, it not met a proper standard. In this branch you are included more software related subject than core subjects. please include more core subjects.
2. please provide proper tech core books relating to our branch in library.
3. Faculty should user friendly to students then only environment should be fine.
4. Better to use PPT's while giving lecture in core subjects, then only students can understand easily.
5. please provide multiple software in lab to design projects rather than giving those 2 software.
